### \*SUMMARY\*

---

Highly motivated and detail-driven developer with a strong foundation in programming, specializing in Flutter, Full-Stack Development, and Data Science. Skilled in designing and deploying responsive applications, with hands-on experience in UI/UX design, backend integration, and collaboration with clients to deliver scalable solutions.

---

### \*WORK EXPERIENCE\*

---

- \*\*Developed\*\* multiple web applications using Angular, .NET, and MySQL, including AdminX, a comprehensive admin dashboard, and SoilSense, a smart agriculture web app, resulting in \*\*20%\*\* increased efficiency and \*\*30%\*\* improved user engagement.
  - \*\*Designed\*\* and \*\*Deployed\*\* Listify, a responsive app with features like adding, editing, and deleting tasks, showcasing state management and clean UI design, with \*\*95%\*\* customer satisfaction rate.
  - \*\*Engineered\*\* a real-time currency converter with API integration and dynamic UI updates using JavaScript, reducing \*\*40%\*\* of development time and \*\*25%\*\* of maintenance costs.
  - \*\*Architected\*\* an AI Chatbot using Chainlit and Gemini API to enable dynamic, intelligent conversations in Python, resulting in \*\*80%\*\* improved customer experience and \*\*20%\*\* increased sales.
- 

### \*SELECTED PROJECTS\*

---

- \*\*Built\*\* AdminX, a comprehensive admin dashboard with CRUD operations for clients, employees, and projects, featuring authentication, data validation, and a user-friendly UI using Angular.
  - \*\*Designed\*\* SoilSense, a smart agriculture web app that provides soil health analysis using real-time data visualization and interactive UI using Angular and .NET.
  - \*\*Created\*\* Listify, a responsive app with features like adding, editing, and deleting tasks, showcasing state management and clean UI design using React.js and Tailwind CSS.
  - \*\*Developed\*\* an AI Chatbot using Chainlit and Gemini API to enable dynamic, intelligent conversations in Python.
-
